Yamaha S90 ES Voice Editor V2.2.2 for Mac
Release Notes

Thank you for using Yamaha products.

S90 ES Voice Editor for Mac (henceforth referred to as "Editor") is a software program that gives you exceptionally convenient and intuitive editing of the various sound and effect parameters of the S90 ES. You can easily transfer the edited data to the S90 ES, as well as save S90 ES voice data to your computer. In addition, the S90 ES can read the data you have created with this software via USB storage device.

This software can be used on its own as an independent editor, as well as with DAW software that is compatible with Studio Connections and the Recall feature.

Before installing:

Ensure that the latest Studio Manager is installed on your computer.

How to check you're the current version:

After starting up the Editor, go to the [HELP] menu -> [Version Information].
